

## Thanh Nien Schedule

This is the schedule as of **31/5/2007**. It contains information on the events that will be occurring over the next few months. Please view and click on the blog link for more information and comments. **Please be aware that your blog account needs to be activated before you can read the blogs. Contact Michael Vu for this info.**

Your wondering "why blog" and "what's a blog". To those not savy in the arts of "bloggin", its pretty much a bulletin and collection of ideas for a specific topic. Not only one persons opinion but a collection of all opinions. This way instead of being inundated with info in our inbox, we store it in blogs. This is good on the admin side, and also your email inbox. Please refrain from using obscene language (name calling will be acceptable).
